

Strategic and Scenario Planning in Ranching: Managing Risk in Dynamic Times

Roger Gates

Managing Risk on the Ranch
Lincoln, NE
September 29-30, 2009

Barry H. Dunn

Executive Director and
Associate Professor
King Ranch Institute for
Ranch Management
Texas A&M University-Kingsville

Martin Beutler

Ranch Economist and Professor
SDSU West River Ag Center,
Rapid City
South Dakota State University

Agustin Arzeno

Senior Business Analyst
AgStar Financial Services
Apple Valley, Minnesota

The background of the slide is a close-up photograph of parched, cracked soil. The cracks are irregular and form a mosaic-like pattern across the entire surface, with some areas appearing more deeply fissured than others. The color of the soil is a light tan or beige.

Reducing Risk on the Ranch: Developing a Drought Planning Guide for Livestock Producers

CONTENTS

STEPS TOWARD SUCCESS	4
Stage 1: Charting the Course: Creating the Vision	6
Step 1: Assess current situation and inventory of ranch resources.....	6
Step 2: Conduct SWOT analysis	8
Step 3: Establish a vision for the ranch business.....	11
Stage 2: Determining Strategies to Achieve the Ranch's Vision	16
Step 4: GAP analysis.....	16
Step 5: Alternative strategies to close the gap	16
Stage 3: Scenario Planning for the Ranch	20
Step 6: Describe multiple scenarios	21
Step 7: Select and evaluate the most-probable Scenarios	22
Stage 4: Merging Strategies and Scenario Planning	24
Step 8: Determine strategies with the highest likelihood of success ...	24
Stage 5: Putting the Plan Into Action and Measuring Success	26
Step 9: Implementation of the strategic plan	26
Step 10: Monitor performance with the Balanced Scorecard	27
For More Information	31
CONCLUSION	32
Making the Case for Strategic Planning: Consider ethanol's impact ...	33
Appendix	34

“All successful people have a goal. No one can get anywhere unless he knows where he wants to go.”

**—Norman Vincent Peale,
author, “The Power of
Positive Thinking”**

“If you don’t know where you are going, you are certain to end up somewhere else.”

—Yogi Berra

Complete an Inventory

Figure 1. Inventory Worksheet to identify current ranch resources.

The image shows a spiral-bound notebook with a light blue cover. The notebook is open to a page with four distinct sections, each separated by a horizontal line. Each section is labeled with a category of resources. The sections are:

- Category: Financial Resources** (top section)
- Category: Physical Resources** (second section)
- Category: Natural Resources** (third section)
- Category: Human Resources** (bottom section)

Each section is currently blank, intended for the user to write down their ranch's resources.

Figure 3. SWOT Analysis Worksheet

Strengths	Weaknesses
1.	1.
2.	2.
3.	3.
4.	4.
5.	5.
Opportunities	Threats
1.	1.
2.	2.
3.	3.
4.	4.

Figure 2. Example of SWOT

Strengths

1. *Rotational grazing system*
2. *Low cost producer*
3. *College degree*

Weaknesses

1. *Grazing system is labor intensive*
2. *Poor marketing efforts*
3. *Lack of good pasture watering system*

Opportunities

1. *Young person graduating from college who wants to get started in ranching*
2. *Nearby ethanol plant opening*
3. *Hunting and fishing opportunities*

Threats

1. *Lack of labor availability*
2. *Prolonged drought*
3. *Rising corn prices*

Figure 2. Example of SWOT

Strengths

1. *Rotational grazing system*
2. *Low cost producer*
3. *College degree*

What is your “unfair advantage”?

Weaknesses

1. *Grazing system is labor intensive*
2. *Poor marketing efforts*
3. *Lack of good pasture watering system*

Opportunities

1. *Young person graduating from college who wants to get started in ranching*
2. *Nearby ethanol plant opening*
3. *Hunting and fishing opportunities*

Threats

1. *Lack of labor availability*
2. *Prolonged drought*
3. *Rising corn prices*

Establish the Vision

Figure 4. "What do we want?" Worksheet

1. If our ranch could be anything we can imagine eight years from now, what would that be?
2. What new activities will our ranch business be pursuing? What business(es) will we be in? Are there new products we would like to produce or activities we would like to be involved in?
3. What will be the important concerns of our customers eight years from now? How do we meet their demands and desires?
4. How will our ranch business excel?
5. What will be the roles and responsibilities of family members and ranch employees?
6. What is of greatest value to family members? To the ranch business?

2. What new activities will our ranch business be pursuing? What business(es) will we be in? Are there new products we would like to produce or activities we would like to be involved in?

3. What will be the important concerns of our customers eight years from now? How do we meet their demands and desires?

4. How will our ranch business excel?

5. What will be the roles and responsibilities of family members and ranch employees?

6. What is of greatest value to family members? To the ranch business?

“[...] operate a profitable, authentic working cattle ranch by 1) obtaining premiums on cattle sales; 2) being innovative in developing and preserving deeded rangelands, hayfields, and improvements; 3) implementing best practices in operations; 4) supplementing income with an integrated guest operation; and 5) being responsible stewards of private and public lands.”

—Horse Prairie Ranch near Dillon, Mont.

“We progressively realize goals in a fun, challenging, encouraging environment and continually improve people, products, services, the ranch, our community, and the ecosystem while sustaining a net profit.”

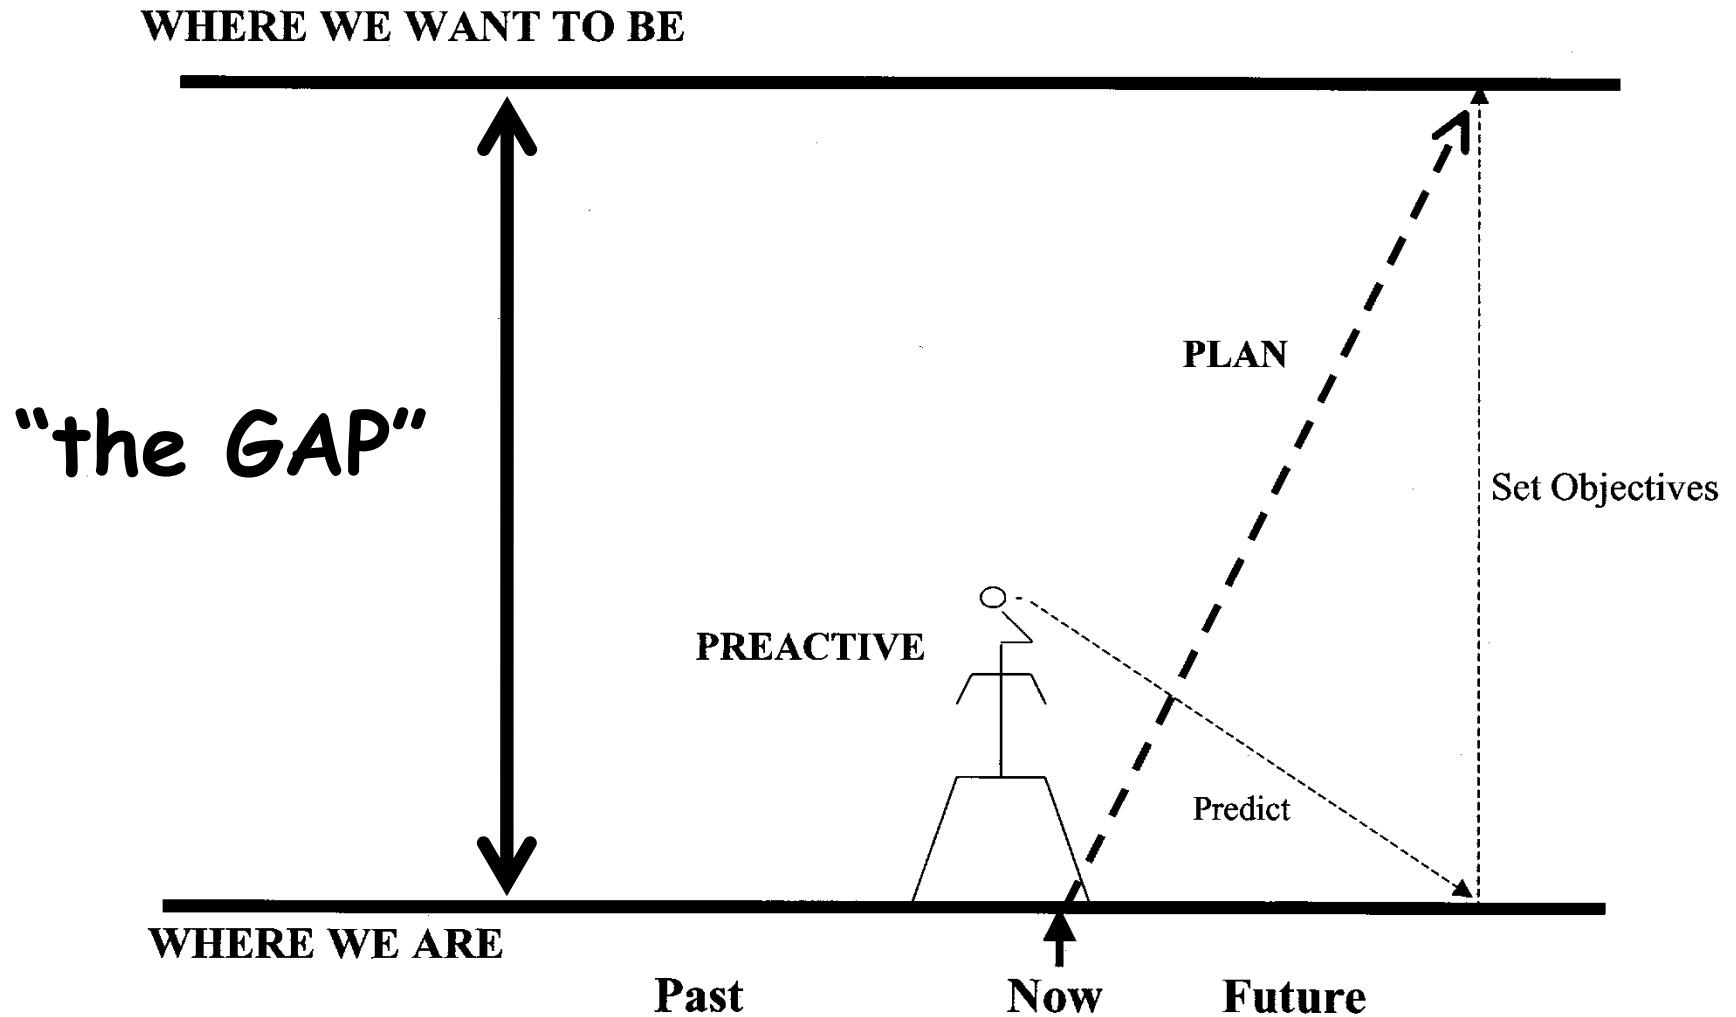

—Paint Rock Canyon Enterprises, Hyattville, Wyo.

“To operate a profitable ranch while improving the natural resources available and pass the ranch to the next generation in better condition in all facets.”

**“The ranch
is not for sale”**

GAP analysis

Preactive Planning

Ranch Wheel

Develop strategies to
close the gap

- Learning & Growth
- Natural Resources
- Ag Commodities/Production
- Customers
- Financial
- Ranch Lifestyle

Describe multiple scenarios

“brainstorm”

Figure 7. Example list of situations that may be of interest or concern

- | |
|---|
| 1. Example 1: <i>labor supply is dwindling</i> |
| 2. Example 2: <i>lease rate of summer pasture increasing</i> |
| 3. Example 3: <i>neighboring pasture land is for sale</i> |

Describe multiple scenarios

research/develop background

Figure 9. Example of revised list of fully developed, most-probable scenarios.

Example Scenario 1: *labor supply is dwindling and cost are rising*

- *Due to expanding oil and gas well drilling, good hands will be tempted to work in the oil fields rather than on the ranch.*
- *Oil reached \$78/barrel and is expected to increase.*
- *Health insurance rates increased*
- *Bunkhouse needs repair*
- *Minimum wage increased*

Example Scenario 2: *Transportation costs will rise*

- *Price of diesel reached \$3/gallon*
- *Favorite trucker called and has raised his prices per loaded mile*
- *A second local trucker quit the business*
- *State raises fuel tax to fix roads*
- *County puts load restrictions on more roads*

Example Scenario 3: *Market premiums for source-, age-, and process-verified feeder cattle*

- *Reputation feeder cattle that are verified received \$20/cwt premiums in last video auction*
- *Last year's buyer called and requested paper work verifying age of cattle*
- *Local sale barn has encouraged me to keep better records*
- *Extension specialists publish recommendations on how and which to keep*
- *BQA re-certification course offered*

Select likely scenarios
- assign probability

Select those that have
greatest potential impact

Merging Strategies and Scenarios

Figure 11. Example strategic planning/scenario planning matrix

	Scenario 1 <i>Transportation costs rise</i>	Scenario 2 <i>Process Verified Premium</i>	Scenario 3 <i>Labor Costs rise</i>	Scenario 4
Learning & Growth				
Strategy 1	+	+	-	
Strategy 2	0	+	0	
Natural Resources				
Strategy 1	-	-	+	
Ag Production				
Strategy 1	0	+	0	
Strategy 2	-	-	0	
Strategy 3	+	0	-	

Implementing Your Strategic Plan

Implementing Strategic Plan

Measuring Success

*“Even if you’re on the right track, you’ll
get run over if you just sit there.”*

—Will Rogers

Figure 13. Example of completed Balanced Scorecard.

Perspectives with Strategic Objectives	Goal	Actual
Ranch Lifestyle 1. <i>Healthy, happy family</i> 2. <i>Sense of security</i> 3. <i>Low stress</i>	Yes Yes Yes	Yes No No
Financial 1. <i>ROA</i> 2. <i>\$ net income</i> 3. <i>Break-even</i> 4. <i>Current ratio</i> 5. <i>Free cash flow</i>	8% \$200,000 \$0.75 2:1 50,000	6% \$204,000 \$0.73 2:1 47,000

Learning and Growth 1. <i>Attend RBCS</i> 2. <i>Attend KRIRM symposium</i> 3. <i>Participate in grazing school</i>	Yes Yes Yes	No Yes Yes

Leading or Lagging?

- Lagging Indicators have already happened.
 - Measure past performance.
 - Things you cannot change.
- Leading Indicators are in the future.
 - Future performance
 - Drivers

Is it leading or lagging?

- Weaning Weight
- Potential cattle buyer inquiry
- ROA
- Lagging
- Leading
- Lagging

Figure 13. Example of completed Balanced Scorecard.

Perspectives with Strategic Objectives	Goal	Actual
Ranch Lifestyle 1. <i>Healthy, happy family</i> 2. <i>Sense of security</i> 3. <i>Low stress</i>	Yes Yes Yes	Yes No No
Financial 1. <i>ROA</i> 2. <i>\$ net income</i> 3. <i>Breakeven</i> 4. <i>Current ratio</i> 5. <i>Free cash flow</i>	8% \$200,000 \$0.75 2:1 50,000	6% \$201,000 \$0.73 2:1 47,000
Customer 1. <i>Feedback good</i> 2. <i>Repeat customer</i> 3. <i>Customer inquiry</i>	Yes Yes Yes	Yes Yes Yes

Ag Commodities/Production

1. Lb weaned/cow exposed	500	520
2. Preg %	94	92
3. Replacement rate %	15	12
4. Cow BCS at weaning	5+	5+
5. Days fed harvested feed	85	98
6. % calves born in first 21 days	65	55
7. \$ vet/cwt weaned calf	\$0.02	\$0.03
8. Cattle ID	Yes	Yes

Natural Resources

1. Stocking rate = carrying capacity	Yes	Yes
2. Prescribed burn	Success	Success
3. Residual forage adequate	Yes	Yes
4. Noxious weeds treated	Yes	No
5. Precip as a % normal	110	90
6. Range condition score	Improving	Steady
7. Photo pts compared	Improving	No Change
8. Grouse count	Increasing	Increasing

Learning and Growth

1. Attend RBCS	Yes	No
2. Attend KRIRM symposium	Yes	Yes
3. Participate in grazing school	Yes	Yes

“More than anything, we believe the best way to predict the future is to invent it. We feel the confidence to shape our destiny.”

**- John Scully,
CEO of Apple Computer**
